## Full-Stack Developer

### OBJECTIVE

Full-Stack Developer with strong skills in HTML, CSS, JavaScript, React, C#, .NET Core, and SQL Server. Hands-on experience in UI development, API creation, and database integration. 3 years of Manual Testing experience ensures reliable, bug-free applications. Open to Full-Stack, Frontend, or Backend Developer roles.

### PROFESSIONAL SUMMARY

- 3 years of IT experience with a strong foundation in Manual Testing and UI validation.
- Practical experience in React.js, C#, ASP.NET Core, SQL, MVC architecture, and API integration.
- Developed CRUD applications, reusable UI components, authentication modules, and SQL data handling.
- Ability to collaborate with development, QA, and UI teams for end-to-end project delivery.

### PROFESSIONAL EXPERIENCE

#### Manual Tester – QA

#### Edgar E-File Solutions Pvt. Ltd. – Chennai

July 2022 – Present

- Performed manual testing for web-based financial and enterprise applications.
- Prepared detailed test cases based on functional & technical requirements.
- Logged, tracked, and validated defects using Jira and coordinated with developers.
- Conducted functional testing, regression testing, smoke testing, and UAT support.
- Executed cross-browser testing across Chrome, Firefox, Edge.
- Prepared test summary reports and defect logs.
- Performed retesting and ensured successful closure of fixed defects.
- Verified data mapping, UI validations, and output accuracy.

### FULL-STACK DEVELOPMENT RESPONSIBILITIES

- Designed responsive user interfaces using React.js and Bootstrap.
- Developed REST APIs using ASP.NET Core with routing, validation, and error handling.
- Integrated frontend with backend APIs for real-time data operations.
- Created SQL Server tables, stored procedures, views, and optimized queries.
- Developed CRUD functionality for multiple real-time applications.
- Implemented reusable UI components and handled state management using React.
- Used Git/GitHub for version control and collaboration.
